SUSTAINING DONORS CAMPAIGN

Every child deserves access to care — right when they need it.

Provider shortages and long waitlists mean children in crisis face long delays in accessing support.
You can change that.

THE NEED IN OUR COMMUNITY

31%

of children in our county have faced 2+ adverse childhood experiences

16.4%

of Georgia children ages 0–17 face multiple adverse experiences

No fast track.

When a child needs help now,
The system has no answer.

Financial barriers and provider shortages leave families without options during a child's most critical years.

WHAT WE DO

We fund therapy sessions, evaluations, and related care — matching families with licensed providers so children receive high-quality, timely support regardless of ability to pay.

HOW YOU CAN HELP

- Donate to fund therapy for children in need
- Partner as a community organization or provider
- Volunteer your time or expertise

95% of every donation goes directly to therapy sessions.
Your gift creates lasting change in a child's life.

Together, we can give every child the opportunity to thrive.
